

## COMMERCIAL.

TUESDAY, August 12th, 1884.

When there is very little doing in commercial circles, there is very little to write about in that line. Such has been the case for several weeks past, and so it is at present. The full details of the sugar markets throughout the world will be found in Messrs. Williams, Dimond & Co's valuable circular.

The arrivals for the week comprise the bkine Ella, bkine Discovery, S S Mariposa, and S S City of Sydney from San Francisco.

The departures include the Consuelo for San Francisco, the Hope for Port Townsend, and S S City of Sydney for the Colonies.

The vessels under dispatch are the Calbarien to sail to-day, and the S S Mariposa to sail on Friday next for San Francisco.

To-morrow there will be an administrator's sale of sundry goods belonging to the estate of F. T. Lenahan, and also a sale of furniture; the former by Lyons & Levey, and the latter by Mr. E. P. Adams.

By the mail, news was received of another shipment of Portuguese having sailed from Madeira on the 19th July per S S Bordeaux (600 adults), and also of another vessel, the bark Dacca, receiving 300 more than the steamer was unable to carry. The Bordeaux is due about the 10th prox., and the Dacca at the close of the year.

SAN FRANCISCO, August 1, 1884.

DEAR SIR,—Our last circular was dated 15th ult. per S. S. Alameda.

SUGAR—Since our last report, the New York market for raws has improved, but at the latest date was quiet and again easier in tone.

Consumers' wants having been met by large purchases and direct importations, the demand was light, and to sell, holders would have to make concessions from nominal quotations.

Cuba centrifugals 97 per cent, sold on the 29th ult. at 15-16 cts.

LIVERPOOL, July 8th.

Messrs. H. Clarke & Co., in their report, say:—"This protracted depression is without a parallel. It cannot be supposed that it will be of great duration, but meanwhile its effects are disastrous to the whole sugar industry, and every day of its continuance implies a curtailment in the future supply of, at any rate, the cane product."

"The present fall is largely due to an artificial cause, viz: the action of 'Bears,' and whilst the manufacturers of Magdeburg have not made a single sale of new crop beet, nor are likely to do so at these prices. The sellers, with the utmost confidence, have sold a large portion of the coming season's production. It now remains to be seen at what price the operators will be allowed to buy back what they have thus sold. In any case their necessities will furnish an item of much strength to the market."

London cables July 24th, excess stock over last year, 50,000 tons.

CANE SUGAR—Quiet; tendency favors buyers. BEET—Weak and declining.

RICE—Owing to reported shortage in the Island crop, rice has advanced in this market to 25c. 60 days. 55c. is offered for rice to arrive by next steamer. There is every reason to believe that this advance will be sustained, as the supply does not exceed the demand. No Eastern trade, as that market cannot stand more than 45c. cash.

FLOUR—G G Extra family, \$4.75; Eldorado, \$3.75.

BRAN—\$16 1/2 f.o.b.

BARLEY—No 1 feed, 90 cts. per cwt f.o.b.

GROUNDED BARLEY—\$19.50 per ton.

OATS—Fair, \$1.45; medium, \$1.60; choice feed, \$1.50.

HAY—Wheat and oat compressed, \$18.00; large bales choice new, \$18.50.

WHEAT—Compressed, \$16.

LIME—\$1.50.

CHARTERS—Owing to improved English advances and free movement of wheat, quite a business has been done, though principally in wooden, and at 25s. Liverpool. Iron has been closed at 45s. Cork UK. Enquiry continues, with tonnage held at higher rates.

EXCHANGE—London, 60 days sight, 49 1/2 d. New York, sight, 15c.

Yours faithfully,

WILLIAMS, DIMOND &amp; CO.

The Liholih brought 340 bags of sugar from Waianae

The Ka Mo brought on Saturday, from Laupahoehoe, 1900 bags sugar. As she was entering the channel she got on the reef, where she remained all night. About 800 bags were transferred to the Walehu. On the following morning, at high tide, she got off without the least damage.

The Mary E Foster yesterday 1,000 bags bone meal from the Discovery to Nawiliwili and Koloa, Kauai

DISCOVERY.—We went out to dinner the other night, and tasted some most delicious soup. I perpetrated a fearful piece of ruse, and asked our hostess for the recipe. Word went, he believed it, she told me it was made from Liebig's extract. I have been obliged to give up soups this weather. I find it so difficult to keep the stock; but now that I know how to make stock each day from Liebig, I shall surprise Tom with an amount of new soups. The flavour is excellent, and one would imagine that it was the most expensive stock—not humble, inexpensive Liebig.—Lady \* \* \* in Life.
